Based on his nine years of experience as a program manager for Internet Explorer, and lead program manager for Windows and MSN, Berkun explains to technical and non-technical readers alike what it takes to get through a large software or web development project. Making Things Happen doesn't cite specific methods, but focuses on philosophy and strategy. Unlike other project management books, Berkun offers personal essays in a comfortable style and easy tone that emulate the relationship of a ...

"Making Things Happen" is a project management book that breaks away from the usual mold. There is so much emphasis on a PMP certification that many project management titles have become dry recitations of the PMBOK. Not so with this book! The book is eminently readable, and the advice is well-grounded in real-world experience. As I read the book, I found myself taking notes for how to apply the information to deal with issues that were coming up in my own projects.
